RE: Logo

Attached please find "class assignments" reflecting new logo designs for your department. I have included all students' work, whether or not it meets your color requirements and is of a quality for reproduction.

The students who submitted work are 9<sup>th</sup>-12<sup>th</sup> grade students enrolled in Computer Graphics II at SBHS. This course is a SBCC dual enrollment course, so technically most of these students are also college students enrolled in MAT 131 (Digital Imaging I).

If you have any questions, I can be reached at [mhumboldt@sbsdk12.org](mailto:mhumboldt@sbsdk12.org) or 729-5356. I do not need the copies back. All files were done in Adobe Photoshop or Adobe Illustrator; psd, ai, or jpeg versions are available.

Ladies & Gentlemen,

I am a student @  
Hancock College & would be  
honored if you would accept  
my entry for your  
Mosquito & Vector Management  
District logo contest for the  
County of Santa Barbara

Best of luck to you  
in obtaining the logo you're  
hoping to get. I sincerely hope  
that mine is the one!

Roberta Garner
