MVCAC Annual Conference and Exhibitor Showcase

The Mosquito and Vector Control Association of California (MVCAC) Annual Conference will include presentations on current research and results, poster displays, and legislative and regulatory information. In addition, the annual conference will provide opportunities to exchange information with other professionals who engage in efforts that protect public health through mosquito and vector control.

MVCAC will also host the exhibitor showcase from Sunday through Tuesday, which features our sustaining members and other industry vendors. This diverse group of vendors will be onsite to discuss how their products and services can meet the needs of your district.

For those of you who don't want to miss the big game, a Super Bowl Sunday President's Reception will be held in the exhibit hall!

We hope you take advantage of this opportunity to network with your peers, meet with vendors, gain exposure to current research and abatement practices, and become informed of MVCAC legislative and regulatory activities.
